Re: Premier Guarantee Warranty approval for Val-U-Therm wall, floor & roof panels

Good news – I am delighted to advise that the Premier Guarantee Technical Services Department have reviewed Val-U-Therm wall, floor & roof panels against our technical requirements and can confirm that we will accept it for structural warranty applications.

Why have we reviewed your product?

As one of the UK's leading warranty providers, Premier Guarantee must ensure that any warranty applications, using a new construction product or system process, are assessed against our Technical Manual to ensure it meets our technical standards, which in some instances are over and above the requirements of Building Regulations. Details of the Premier Guarantee Technical Manual can be found here:
www.premierguarantee.co.uk/technical-manual-v11/

As part of our risk management process, Val-U-Therm wall, floor & roof panels was assessed either during our warranty quotation stage or during construction as your product has been specified on one of our schemes. From our investigation, the following conditions must be complied with when using Val-U-Therm wall, floor & roof panels in order for Premier Guarantee to accept:

- 1) The product should be constructed in strict accordance with the BBA certificate (12/4892). 2) The BBA certificate must remain valid 3) The external sheathing must be protected with a breather membrane. 4) The outer leaf of masonry must be drained and vented and formed with a minimum of a 50mm clear residual cavity 5) The panels should only be installed by installers who have been trained and approved by the certificate holder.

What happens next?

Premier Guarantee is happy for you to promote our approval to your existing and potential customers. To support this, I have included a copy of our Guide to Services and can also supply a copy of our logo to promote on your website, literature etc. if you email marketing@premierguarantee.co.uk

Attending ecobuild 2016?

For more information on Premier Guarantee come and visit us on stand E1070 at Ecobuild (ExCeL exhibition and conference centre) from the 08-10 March 2016. For more information on attending go to www.ecobuild.co.uk or if you are already exhibiting, why not promote our logo on your stand?

If you have any questions relating to your approval please email technical.manual@premierguarantee.co.uk and we will be happy to help.

Yours sincerely

John Gilbert
